## PATRIOTS WILL PUSH THE FIGHT

and Move on the County.

ASSAULTS ON COUNCILMAN HAR-TENSTEIN TO CONTINUE.

"To the victors belong the spoils," will from this time forward be the battle cry of the "Americans," who won such

ment.

"We are not fighting the Mormon people as a people." he said yesterday: "what we are fighting is their system of doing business. We had Mormons, a few. working for us in this campaign. If I have my way about it, they will receive the same consideration as do the Gentiles."

those who are traveling between Salt Lake and Los Angeles will be getting the news nearly as quickly as it is received here.

The new "Los Angeles Limited," by which name the new train is to be known, is creating considerable interest in railroad circles. This train, which

"The election yesterday was but the beginning of our warfare," Chairman Darmer said when asked as to the future policy of his party.

Attempt to Capture County.

Attempt to Capture County.

"We will keep up our organization and we will make a fight for the control of the county. We have brought about the redemption of the city; we will next move upon the county. We are in this thing to the end of the war. There is to be no turning back until the Mormon church permits its people to vote as freely as other American citizens vote, and to do business and perform public duties without dictation from church authorities, high or low.

"You may set one thing down as settled." Chairman Darmer announced with blazing eye and war in his voice; "that is that the fight against E. A. Hartenstein is to be prosecuted to the last ditch. From all parts of the city messages came to me this morning to prosecute the case against Hartenstein with the same vigor used in the city campaign. A contest will be made on the ground of fraudulent voting. In a number of districts the "American" watchers were not permitted in the rooms where the voting was conducted. We were deepived of judges mail the districts, and this gave opportunities for all kinds of crooked work. I don't say that much crooked work was often, and Hartenstein may gain as many as our man does, but there will be a recount, and there will be a cocount, and there wil

In response to the intimation that the town is to be "wide open" in the widest sense of the word under the incoming administration, Chairman Darmer said:

"Nothing could be further from the truth. No man or set of men has any pledge or promise from Ezra Thompson binding him to any sort of policy. I could have had all kinds of money from the sporting element for campaign purposes if I had been willing to take it; but I would not touch a cent of it, because I did not purpose to bind the mayor to any man, set of men or policy. The city will be conducted on safe, conservative lines under Mayor Thompson. His policy with regard to these things will be very much the same as under his previous administrations."

Chairman Darmer refused to discuss appointments under the new administration, although this is now the most interesting topic of conversation in the ranks of the victors. It is intimated that Colonel E. A. Wall will be retained at the head of the board of public works, and that J. D. Wood will be retained at a member of that organization. Both are active and public spirited, and have rendered valuable services to the city.

Town Will be limited to Dec. 1. A large movement is anticipated as there has been a rabbit hunt planned in Tooele county. A great many persons will take advantage of these rates and spend Thanksgiving with the "old topics." It is anticipated the smelters and railroad building now on at Gar-field will attract considerable travel in that direction also.

Rio Grande Officials Here.

A special car carrying Denver & Rio Grande officials arrived in this city yesterday. Among the party are C. H. Schlacks, vice president; E. J. Yard. chief engineer, and A. S. Hughes, traific manager. They say their visit here is for the purpose of investigating affairs at this end of the road only. They have nothing new to announce regarding the proposed depot to be erected by the Rio Grande. After looking over the situation here they will return to their head of the road only.

able services to the city.

It is also intimated that Frank Hines will be retained at the head of the waterworks department. He is credited with valuable services in behalf of the new party, although many thought he retained his regularity in the Republican fragment.

James Devine Would Not Refuse.

James Devine got into the "American" band wagon in time to have his chances discussed in connection with the head of the fire department. It is not at all certain that he will land the plum. A movement is well under way even at this early day to have W. G. Bywater retained as chief of the fire department. This movement is being started by leading business men, "Americans," Democrats and Republicans. Fire insurance men are said to be prominent in this movement. They assert that the fire conditions of the city are better than ever in the history of the city, and that the record made by Chief Bywater for fire fighting cannot be excelled. This movement may complicate matters for Chief Devine.

It is well understood by this time that there will be a mad rush for every job at the disposal of the new administration. This will develop into a scramble long hefore inauguration day if the appearances about headquarters are to be taken as an indication.

Naturally many are asking themselves

Gentiles."

This disposition to permit Mormons to form part of the incoming administration is likely to act as an apple of discord in the "American" ranks. What they were fighting for was to crush out the Mormons entirely. This was the case with the extreme radicals. When they learn that their deadly enemies are to receive consideration at the hands of their leaders there will be an uproar among the patriots that will make itself felt outside of the ranks as well as within.

"The election vesterday was but the known, is creating considerable interest in railroad circles. This train, which has been described in detail in past issues of The Herald, will be one of the linest operating in the United States. Major Myton Would Yield.

All talk of Major H. P. Myton for chief of police is said to be so much wasted air. The major during the campaign was the Republican chalman of the Fifth municipal ward. Many of the Republicans are now charging that he worked covertly for the "American cause all the time. This uncertainty as to the major's standing will have a tendency to keep him out of fat jobs under the new regime. It is well understood that George A. Sheets can have any position he cares

Samuel M. Barlow is another factor to be reckened with in the selection of a chief of police. Mr. Barlow is a brother-in-law of Mayor-elect Thompson. He wields a big influence in the Third municipal ward and has played an important part in the election of Mr. Thompson in each of his three vaces for the mayoralty. Still another big man in the manual convention of New York Central and West Shore fast freight line agents held in St. Louis on the first of this month. They were accompanied to this city by L. M. Allen, general eastern freight agent of those lines in New York Mr. Allen will spend the influence of Senator Thomas Kearus. His term will soon expire and he has no chance of a reappointment under Sonators Smoot and Sutherland. For that reason it is thought he would look with favor upon the office of chief of police. He will be a strong candidate for the job if he enters the race.

BOY INSTANTLY KILLED.

Accidentally Shoots Himself With a .22-Caliber Pistol.

Prove. Nov. 8 .- This morning about

clock a very lamentable accident or urred at the home of Rollo Callaway. 8 North First East street, resulting in the instant death of Ward Callaway,

curred at the home of Rollo Calaway, as North First East street, resulting in the instant death of Ward Callaway, a bright little S-year-old sou of Mr. and Mrs. Callaway. Rollo, an elder brother 15 years of age, had borrowed a .2-callbre pistol from another boy a few days ago to take on a trip to the mountains. He was going to return if this morning and put it on the stove while he went to get a bucket of water. Ward picked up the pistol soon after the elder brother had placed it on the stove, and the accidental discharge of the pistol occurred almost immediately after he took hold of the weapon. The bullet entered Ward's forehead, killing him instantly It is believed the pistol was half cocked when placed on the stove, and was, therefore, easily discharged. It appears that Rollo had been asked by his mother to return the pistol before today, and he is nearly heartbroken over the affair, blaming himself greatly for the accident. Mr. and Mrs. Callaway moved here from St. George about a year age. Mr. Callaway is now in Kimberly working in the mines.

A runaway of a team belonging to the Telluride Power company resulted in N. A. McKay sustaining a sprained wrist by jumping from the wagon. He and Assistant Superintendent C. S. Ruffner were riding down Center street in a spring wagon. Mr. Ruffner driving. At Fourth West street the tongue broke and Mr. Ruffner was thrown from the wagon, but was not seriously hurt. Mr. Mc-Kay then jumped, and the team ran as far west as the foundry, where it stopped A peculiar feature is that when the horses stopped one of them was lying flat on a big dray standing by the side of the reclining mate.
